

so, let's talk about  
entropy

# idea

- a ccc in karlsruhe
- 1998 chaostreff
- 1999 registered club
- in need of a location
- 2001 erfa
- 2001 moving in

# moving in

# meetings

- 24/7
- sunday meetings
- always open meetings
- sometimes talks
  - routing protocols
  - using lua/perl with c
  - how to make music
  - securing entropia
  - ...

# financial

- membership fees (from 6€ to 10€)
- selling “club mate”
- lots of members
  - try to convince people to participate financially, too
- donations / sponsoring
- low budget location

# demographics

- lots of students
  - well, computer science students
- few women
- young and old too

# about karlsruhe

- lots of students
- small town
- “internet capital of germany”

# infrastructure

- internet, wlan, music, file server
- kitchen
- soldering irons, etc. pp.
- couches

# evergreens

- GPN
- bl0rglicht
- radio chaotica

# GPN

- “goulash coding night”
- low budget
- 3 days
- focus on coding
- cozy
- gpn1 in 2002 ...
- gpn6 in 2007
- up to 200 visitors

A man in a grey long-sleeved shirt and glasses is working on a small electronic component in the background. He is holding a yellow tool, possibly a soldering iron or a small screwdriver, and is focused on his task.

# organization

- legal roles for legal issues, only
  - board of directors shouldn't decide things
- “the one who does something, is right.”  
by definition.
- try to have a monthly plenum
  - discussion
  - introduce new people
  - talk about who should bring the trash out

SUBOTNIK!

# electronics

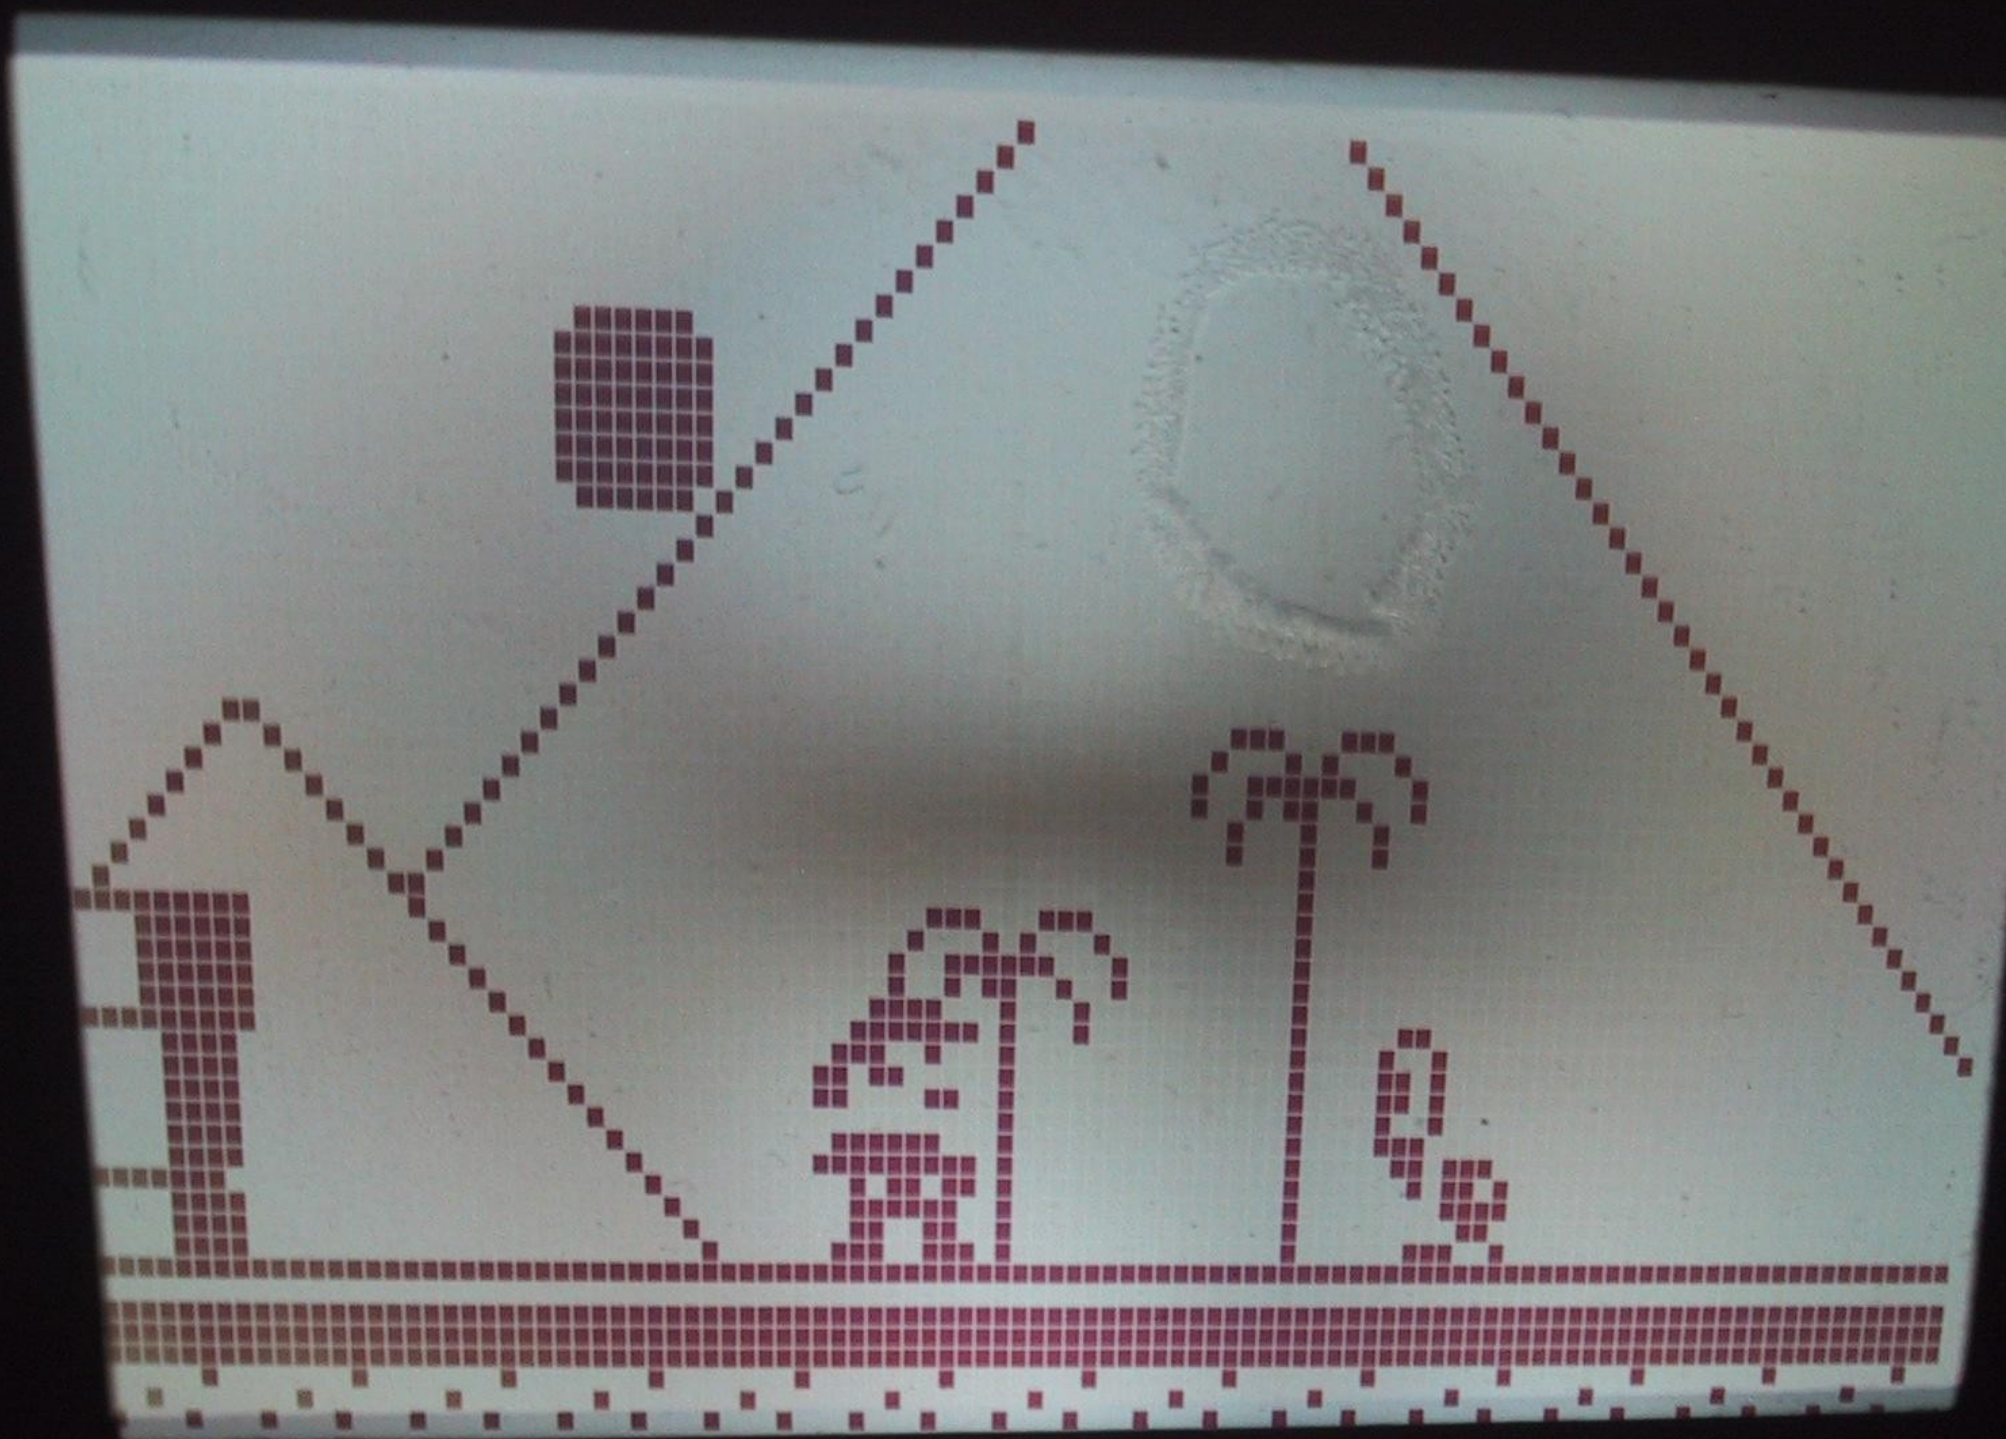

- equipment
- bl0rglicht++
- lasers
- led-cube and beamer
- little stuff
  - led things
  - annoying devices
  - turbo-tina, ...

# communication

- wiki
- irc
- jabber
- encrypted mailing lists
- f2f communication
- communication via smoke

# partying

- irregular
- fun
- bbq
- neighbours call the police when we play “micromachines”

# things to improve

- regular talks
- plenum
- the trash situation
- radio
- public relations
- budget
- finish projects

uni leaks in

# how to annoy people

- the music selection
- put an opensolaris gdm theme on the single working workstation in the club.
  - (2 weeks after the last bsd was nuked by plan9 and reinstalled)
- technology
  - beeping devices
  - nineties.so LD\_PRELOAD
  - curse a lake (idea)
  - ...

# the people

a place to crash for visitors

# common lisp background

- “pot and lame type systems like in c/c++ do not mix.”
- “thc and lisp dialects are wonderful combinations provided you don't mind spending 20% of your time rejoicing in the beauty that is a dynamic language with uniform syntax and a real goddamn macro system.”
- scheme took all defun out of lisp

# the club mate singularity problem

- take one, put two back in the fridge
- takes care of the verpeilungsfaktor
- if we don't stop refilling, the fridge will end up as a singularity in space and time
- verpeilungsfaktor helps stopping before we end up with a black hole in our fridge

# others groups using our rooms

- lockpickers
  - locked locker
  - regular meetings
- gay group
  - pink library
  - regular coming out meetings

# so, again, what is it?

- low budget
- cozy
- fun
- full of 1337 people
- the \$h1t
